

Pre-Application Traffic Light System Form

Please complete this form online (preferred method) then print, sign and submit as instructed. Alternatively, print, then complete in BLOCK CAPITALS using black or dark blue ink.

APPLICANT DETAILS	
Name (company name if applicable):	
Registered company number (if applicable):	
Address:	
Telephone:	
Email:	

1. What is the name and status of the entity proposing to operate the space system to be licensed?

2. What is the name/designation of the planned launch system and the associated launch site/range, and who will have jurisdiction over the launch?

3. What are the injection and operational orbits of associated stages/platforms, and what measures are planned to avoid interference with other space objects, and remove the platforms at the end of the operational life?

4. Are there multiple platforms on the launch, and if so, what are they, and who is responsible for them?

5. What are the durations of the different phases of the mission, and are there any novel aspects of (e.g. orbit raising/ rendezvous manoeuvres)?

6. What is the primary operational function of the platform and its payload(s), and if there are secondary functions, please confirm these?

7. Does the platform/bus conform to an internationally recognised/industrial standard, and if so, please provide information on the nature of its specification (design/performance)?

8. What is the range of times and dates for launch epoch and the constraints on the associated launch window?

9. Will the platform operate independently or is it planned to as part of a wider system such as a constellation or fleet of spacecraft acting in a collective/coordinated/cooperative manner?

10. If re-entry will occur, is it controlled or uncontrolled, and what measures are planned to avoid any significant impact hazard on the ground?

11. Is the goal of this mission to support current/future security or defence technologies or operations, or does the mission involve the use of dual-use technologies, including but not limited to ground/space imaging, signals collection or rendezvous/proximity capabilities? Please provide information on the nature/specifications of these capabilities.

12. At any time during the mission, are any third parties granted access to any telemetry or tracking information, or access to command and control of the spacecraft, and is access provided to the primary operator or third party from outside of the UK? If so, please provide details.

INVOICE DETAILS

Although there is currently no charge for this pre-application stage, please provide the details requested below for future invoicing purposes (if different from those given at the top of this form).

Invoice to (Company Name in full, not abbreviated/sole trader/individuals name)

Company Registration Number (where applicable)

Company Address

City/Town

Country

Postcode
